

3 days of workshop in Bordeaux to test Virtual Forest Intellectual Outputs

C2: Short-term joint staff training events [learning, teaching and training activities]

Date: 24th – 26th of May 2023

Location: Bordeaux Sciences Agro, agronomical school of Bordeaux, 1 cours du Général de Gaulle, 33170 Gradignan

Leading organization: IEFEC

Objectives:

The objectives of this Intensive Learning Period are (1) to promote professionals with the project and among consortium partners and (2) test the functionality and effectiveness of VirtualForests project intellectual outputs.

The 3 days workshop will be held in a hybrid format to host project partners, students and professionals both in-person and online. We plan to review 6 different tools under development by the project using the following approach:

1. A general presentation of the tool by the developer
2. Self-training on the online tool and review of the associated materials, website, etc. Perform some tests and fill an evaluation form
3. A joint discussion to collect feedbacks, suggestions for area of improvements and a realistic assessment of the dissemination/ upscaling potentials

Agenda:

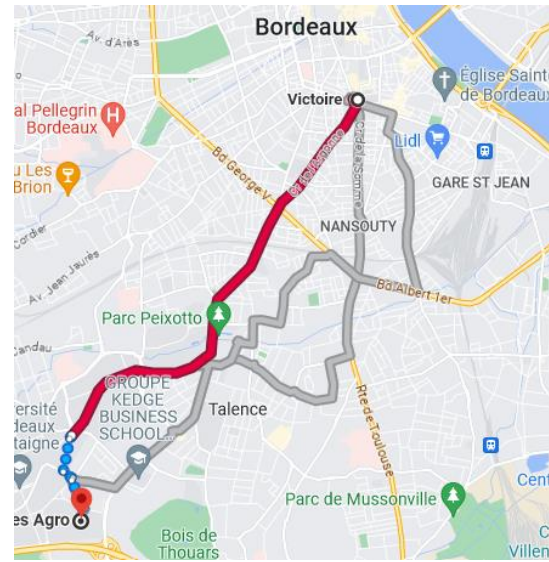

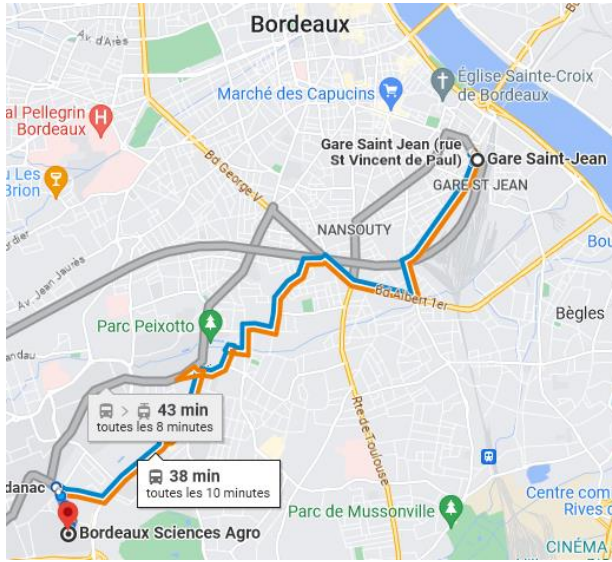

Wednesday 24th of May Zoom link	14:00	Opening with an overview of the VirtualForest project (Ruben Saornil Mingues , UVa, project coordinator)
	15:00	Marteloscopes virtual tour José A. Reque Kilchenmann, UVa (online)
